Founder, World Orphans Day

**LUKASZ KOSCIELSKI**  
CEO, The Global Football Project  
Foundation

# Welcome to USLACC Africa Success Story

USLACC Africa is a leading force in creating strategic investment opportunities across the African continent. Through high -impact, epoch-making events, we convene game changers, investors, youth leaders, technology experts, business alumni, diplomats, financial broker houses, manufacturers, and industrialists to foster partnerships, expand networks, and stimulate sustainable economic growth.

We are deeply committed to designing platforms that unlock investment potential, elevate and connect indigenous African manufacturers, and increase global awareness of key sectors, untapped resources, and emerging markets across Africa.

## **Our mission is clear:**

To lift millions out of poverty and foster long -term economic stability through strategic partnerships, trade expansion, and innovation -driven development.

## **International Trade & Investment Facilitation**

In our bid to build bridges with global business leaders —particularly in countries already synergizing with African enterprises —USLACC Africa:

- Unlocks investment opportunities across key African sectors
- Facilitates direct access between global investors and indigenous manufacturers
- Promotes import and export expansion
- Organizes international business summits and trade events
- Drives structured matchmaking between investors and enterprises

Our international events are deliberately designed to convene investors, manufacturers, business leaders, and industrialists for meaningful networking, deal -making, and cross-border collaborations.

## **Youth Empowerment & Economic Inclusion**

Our second major passion is youth empowerment.

We believe Africa’s transformation lies in shifting from consumption -driven economies to production-driven economies. To achieve this, we focus on:

- Entrepreneurship development
- Job creation initiatives
- Advanced skill acquisition programs
- Technology advancement and digital literacy
- Innovation and creativity development
- Youth inclusion in economic policy and investment conversations

Through proceeds from our international events and structured endowment fund drives, we create a funding pool dedicated to:

- Local and overseas training programs
- Technology and entrepreneurship education
- Advanced technical skill acquisition & Youth sponsorship initiatives

### Long-Term Vision

Our long-term goal is the establishment of:

- Technology hubs
- Skill acquisition centers
- A Pan-African Smart City ecosystem

### This proposed Smart City will serve as a continental innovation

The proposed Smart City will function as a continental innovation and enterprise hub catalysing industrial productivity, technological advancement, youth empowerment, and inclusive economic growth across Africa.

## WHO WE ARE / PARTNERS?

The United States –Latino American Chamber of Commerce (USLACC), is a distinguished public institution headquartered in Los Angeles –one of the world’s largest regional economic centers. Over the years, USLACC has played a significant role in promoting bilateral foreign direct investment, infrastructure development, and trade between the United States and various regions globally.

The African Region was established in 2015, and Mrs. Ifeoma Mary Ejiogu was appointed and inaugurated at the headquarters in Los Angeles to lead the region. Ambassador Ifeoma, recognized for her expertise in mobilization, strategic event convening, entrepreneurship development, and humanitarian initiatives, understood the importance of building a strong institutional structure from the grassroots level upward. She strategically incorporated respected elder statesmen and women as Patrons and Board Members to strengthen the the credibility and governance framework of the Chamber in Africa.

### Strategic Partnerships

USLACC Africa operates through strategic collaboration rather than isolation. The Chamber works closely with:

- Government agencies
- Non-governmental organizations (NGOs)
- Cooperatives and private institutions
- The Federal Ministry of Foreign Affairs, Nigeria, among other relevant agencies

In further expansion of its developmental mandate, Ambassador Ifeoma has also secured partnerships with U.S.-based organizations to implement more technical, structured, and wealth generating programs aimed at poverty alleviation across Africa. These include:

- The Stars Foundation
- World Orphanage Day
- ICEMAN Production (World Media Outlook)

Additionally, USLACC Africa collaborates with a Polish sports company led by its Chief Executive Officer, Mr. Lukasz Koscielski, alongside other local and international partners.

# Welcome to USLACC Africa Success Story

AMBASSADOR IFEOMA MARY EJIOGU  
AFRICAN REPRESENTATIVE, USLACC

## Statement From The Visionary

**Africa stands rich with diverse and abundant mineral resources assets capable of generating employment, creating wealth, and drawing global attention. Now is the time to develop the vision and discipline to wisely manage what we have been blessed with.**

**Let us make a collective commitment to recover the wasted years and build solid structures that will empower the next generation. By investing in our youth, equipping them with technological knowledge and practical skills, we can raise inventors, innovators, manufacturers, creators, and critical thinkers. African youth are exceptionally intelligent, equal in potential to their peers across the developed world. What they need is opportunity.**

**Join Ambassador Ifeoma Mary Ejiogu in driving this transformation. Together, let's ignite a new era of progress, purpose, and prosperity for Africa.**

**Ambassador Ifeoma Mary Ejiogu, connecting with people that matter in her vision, doggedness and projects in the world.**

Ifeoma, does not work alone in all the plans and engagements she does in Africa.

She creates events and trade missions to promote economic growth that raise massive and notable result in Africa, strengthens partnerships and great development.
